DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-17, drawn to an optical disc reproduction system having particular holographic lens arrangement, classified in class 369, subclass 112.15.
 - II. Claims 18- 19, drawn to a multi optical disc accessing system, classified in class 369, subclass 178.01

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I and II are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions In this particular case the invention of Group I is drawn to simultaneously accessing a SINGLE LAYER/DISC with multiple beams requiring particular holographic lens arrangement. That of Group II is drawn to a METHOD OF ACCESSING PLURAL DISCS at different times with individual laser beams with no required holographic lens arrangement.
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Also, because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

Finally, because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

4. No telephone call was made to applicants' representative to request an oral election to the above restriction requirement, due to the diversity/complexity of the claimed subject matter. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer

Art Unit: 2653

an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Applicants are given ONE MONTH (NOT LESS THAN 30 DAYS) within which to reply to the above restriction requirement.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Aristotelis M Psitos whose telephone number is (703) 308-1598. The examiner can normally be reached on M-Thursday 8 - 4.
